The Advisory Neighborhood Commissions Functions Modernization Act has a number of changes to the current ANC law:

- It will give the OANC the right to comment on ANC redistricting reports by the Council redistricting committees in order to have input on the proposed SMDs. As some of you are aware the last redistricting has created some SMDs that are continually vacant due to problems in how the SMD was created. It also allows the OANC to place a staff person on the Ward task force for ANC redistricting.
- It will have the Board of Elections conduct special elections at the Central Treatment Facility and the Central Detention Facility rather than the OANC
- It will allow the Board of Elections to accept funeral home death notices/obituaries, or an obituary published in a newspaper of general circulation when a Commissioner dies in order to declare a seat vacant. Currently, the ANC has to have a special meeting with certified notice sent to the last known address and it adds a lot of time before a seat can be declared vacant.
- Changes the law from prohibiting ANCs from “soliciting funds” to “soliciting donations”
- Proposes to withhold allotments from ANCs that have not filed their annual spending plan by November 30th of a fiscal year, until such time as a budget is approved.
- When an ANCs bank account or the total of their bank accounts exceeds \$50,000, they will discontinue receiving allotments until the balance is spent down. It is proposed that the money go into the Technical Assistance Fund, a non-lapsing fund to support ANCs for technical and expert needs. As of July of 2026, nine ANCs had more than \$100,000 in their accounts and 19 had more than \$50,000.00 in their accounts.
- Allows a Commission to transfer a portion of your annual allotment to a District agency that provides food, shelter or healthcare.
- Would clarify the law that expenditures by an ANC can be made on staff salaries, independent contractors, contracts for services and memoranda of understanding with District agencies and telecommunication (RTS) agreements with District agencies.

The Advisory Neighborhood Commissions Payment Modernization Act will allow ANCs to use third party payment applications so long as it “at a minimum, the date, amount, payee, and an associated transaction identifier for each transfer.” There are concerns within the OANC and other District entities about this proposal.
