She was correct. - *Jacob Estes asked for an update on new trees planned for Connecticut Ave, specifically oak trees and recommended new trees for George B. McClellan Park.*
- *Chris indicated that the detour on 19th Street is confusing and the signage is not sufficient to let people know they can take a left and needs to be addressed.*

Parking Enforcement on Belmont, Tracy and Wyoming Avenues

- *Various constituents expressed concerns re: parking and traffic congestion issues related to the lack of parking enforcement on Belmont, Tracy and Wyoming Avenues. Issued ranged from traffic congestion on Belmont, to the lack of parking for Mosque attendees, and sensitivities and fairness about parking reinforcement for attendees of religious institutions and parking violations by service contractors.*

The Bobbi Renovation 2151 California Street NW

Community meeting in July

- Desa Sealy, representing the building; start construction in July, a larger community meeting in July re: impacts on the neighborhood

Bobbi and Wyoming Ave Renovations causing congestion and city service disruptions

- Rick's concerned about using the alley for both the Bobbi and 2146 Wyoming during construction, could cause congestion, affect trash pick-up.
- Leslie inquired how long construction will take place; have a lot going on California street already, both in the front and back.

Coordination with DC Water and the Bobbi--

- Leslie expressed concern that there needs to be better coordination with DC water and the Bobbi about the small diameter project while the Bobbi construction is going on in the alley, and perhaps the DC Water project needs to be delayed until the Bobbi construction is complete. She will be reaching out to Sean Moore on this issue.

Timeline & Funding

- Chris inquired about the timeline and funding; was told to go to the DC Housing and Community website for more information.
- Leslie asked how realistic it was that the Bobbi would close at the end of the June, since there had already been a ¾ month delay. The Bobbi reps expressed confidence in this closing date.

2146 Wyoming Ave NW renovation/addition

- Chris expressed concern that the Bobbi and the 2146 Wyoming Avenue project taking place at the same time will bring more congestion to the neighborhood during and post construction.

Sheridan Circle

- Renovation electrical unit above ground enclosure
  - Chair Feld, Deborah Shapley & John Buntin (RMA), Brian Romanowski and others indicated there needs to be a smaller alternative to the planned Permanent electrical unit and enclosure (5' high x 3' wide), and that RMA and ANC will continue to work with PEPCO and NPS to advocate for this including camouflaging whatever unit is permanently installed.

  Lighting
- Jacob Estes, asked about a light illuminating it at night; Commissioner Feld indicated that would be Phase 2 if the NPS and SK wanted to pursue that, would engage the community on Phase 1 if Community is needed for continued update after the NPS contract expires.
